Hello Todd,

During our last conversation a couple weeks ago, you indicated that it was acceptable to proceed with creating a temporary settling pond on the Success Placer. From your note below, it appears that you want to put a hold on that now. Please let me know, as I am in the process of developing construction plans, possibly to implement this fall. Conditions may be better in October to put the pond in versus June or July.

As for meeting next week, later would be better because of travel the first part of the week.

Thank you,

Steve

Mike-

Due to just getting back from work overseas, I can't make the stakeholders meeting today (not really safe to drive that distance on little rest). I am traveling most of next week, but should be available the first week of October. We really need to talk before any pond construction, etc.

Todd: I have been out of the office for the past couple weeks, and just getting to your email.

I will be at the ARSG meeting tomorrow, if you plan to attend let's talk in Silverton.

Subject: Re: Meeting re Sunnyside Mine Pool

Mr Holmes:

The agenda would roughly be:

1. Discussion of further bulkheading and its consequences
2. The effect on economic development in San Juan County from EPA's activities (i.e. what effect on Gold King/Mogul/other mine potential production).
3. Water treatment feasibility
4. Assurances for the the property owners adversely affected by past CDPHE/EPA actions.

I am out of country the week of Sept 10th. Also out of office most of the week of Sept. 24th.

Todd: could you suggest an agenda of things you would like to discuss, so I can make sure the appropriate people are at the meeting.

Thanks

Mike Holmes

Mike-

Just a reminder to try to arrange this. I will be available after August 15th.

Todd
